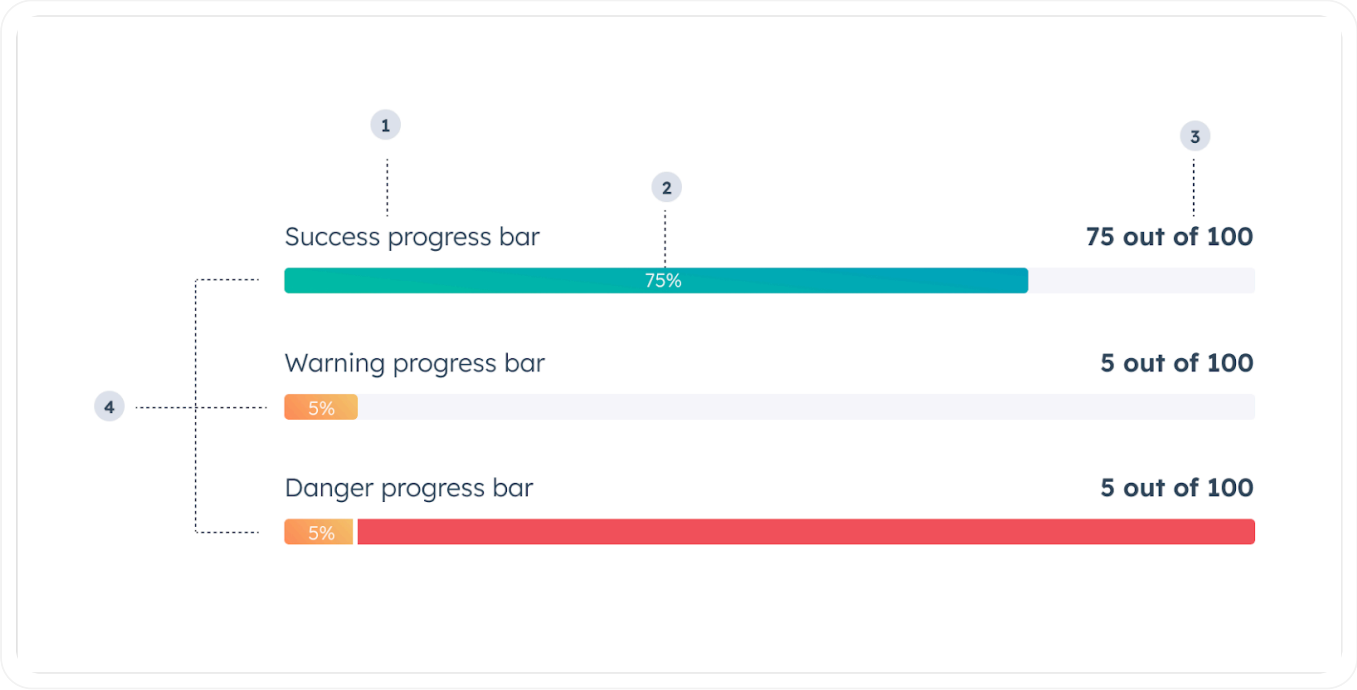
Standard components

ProgressBar

Learn about the ProgressBar component for use in UI extensions.

The `ProgressBar` component renders a visual indicator showing a numeric and/or percentage-based representation of progress. The percentage is calculated based on the maximum possible value specified in the component.



1. **Title:** the text that displays above the bar to describe the data it represents.
2. **Completion percentage:** the percent value of how much progress has been made.
3. **Value description:** the text that describes the current state of the bar's value.
4. **Variant:** the color of the progress bar.

```
};
```

Props

Prop	Type	Description
`aria-label`	String	The accessibility label.
`maxValue`	Number	The maximum value of the progress bar. Default is `100` .
`showPercentage`	Boolean	When set to `true` , the progress bar will display the completion percentage. Default is `false` .
`title`	String	The text that displays above the progress bar.
`value`	Number	The number representing the progress so far. Default is `0` .
`valueDescription`	String	The text that explains the current state of the `value` property. For example, `"150 out of 250"` .
`variant`	`'success'` (default) | `'warning'` | `'danger'`	The color to indicate progress sentiment.

Variants

Using the variant prop, you can set the following progress bar colors:

- `'success'` : a green bar to indicate movement towards a positive goal or outcome.

- `'warning'` : a yellow bar to indicate movement towards a negative outcome or limitation.

HubSpot Developers

›

`'danger'` : a red bar to indicate movement towards an extremely negative outcome or when a limitation has been reached.

Usage examples

Evaluating the sale of products against a quota or goal.

Communicating the stage progress of a deal or ticket.

Monitoring the number of support calls or tickets per customer.

Guidelines

DO: use the `showPercentage` prop to give the user more information about the status of the progress.

DON'T: use more than 3-4 progress bars in a single card.
